Aeroquip

Lightweight Quick-Disconnect Couplings

For Radiator/Cooling Systems

Innovation Sheet

IMPROVED

NEW

Female Half

- Aluminum female quick-disconnect coupling is 50% lighter than standard steel version*
- Viton seals allows higher temperatures
- Stainless steel internal components significantly increase corrosion resistance
- Blue anodized 6061 aluminum body
- Easy connect/disconnect with positive locking
- For use with aluminum male coupling half (FBM1153)

Male Half

- Replacing previous carbon steel components with stainless steel material significantly improves the corrosion resistance of the popular coupling
- Red anodized 6061 aluminum body
- 54% lighter than standard steel version
- Viton seals allows higher temperatures
- For use with aluminum female coupling half (FBM3114)

	FBM1153 MALE HALF	FBM3114* FEMALE HALF
Working Pressure	250 PSI	250 PSI
Temperature	-15° F to +300° F	-15° F to +300° F
Weight	1.73 oz.	3.97 oz.
Seal Material	Viton	Viton

*Coupling still available with a steel body and steel poppet components by ordering part number FBM3113.
