

HI-IMPULSE® Hose

Longer Hose Life Under Demanding Impulse Conditions

GH793 represents one of many HI-IMPULSE hose styles now available from Aeroquip.

Equal tensioning of individual wires ensures uniform distribution of forces.

Features

- Impulse life up to 5 times more than required by SAE specifications.
- Handles pressure up to 33% higher than conventional hoses.
- Equal tensioning of high strength wire ensures even distribution of loads.
- Available in a complete range of sizes and a choice of compounds, including Aeroquip's proprietary AQP®.

Benefits

- Aeroquip HI-IMPULSE hose meets or exceeds both SAE and DIN pressure ratings. Higher performance ratings result in longer hose life, increased reliability and less downtime.
- Aeroquip uses high tensile strength wire and advanced construction techniques to manufacture hose able to withstand the high pressure spikes of today's hydraulic systems.
- For the most demanding applications, you can rely on the most dependable hose in the industry – HI-IMPULSE Hose from Aeroquip.
